PROJECT NAME   : DATA DOMINATORS:A COMPARATIVE

                            STUDY OF TOP GLOBAL UNIVERSITIES IN

                            DATA ANALYTICS
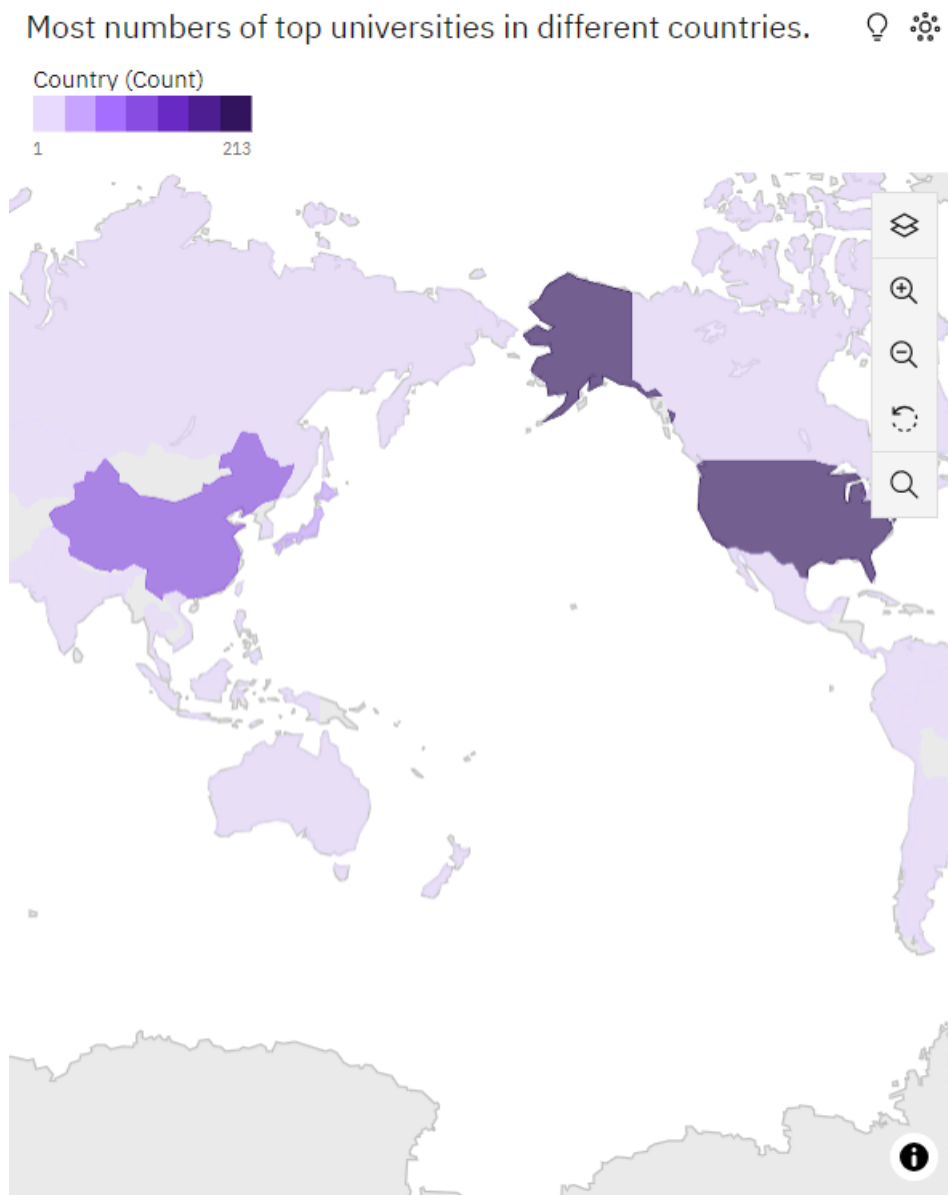

1.INTRODUCTION:

1.1 PROJECT OVERVIEW:

A Comparative study of global universities is a comprehensive analysis of the world top universities .University is a place of study and learn the new things and to develop knowledge.Learning and developing knowledge is very importance to all the students.This project aims to show and give the details about the top universities all over the world.
1..2PURPOSE:

The purpose of the "A Comparative Study of global Universities " is to analysis and understand the numbers of top universities,environment surrounding, placement ,universities by country and also the ranking of universities in the global.

# 2. Visualization using IBM COGNOS Analytics:

The Graphs are created with different types of visualization.

Most numbers of top universities in different countries.

Country (Count)

1   213

University by Country

Country

- Ecuador
- Luxembourg
- Croatia
- Malta
- Nigeria
- Costa Rica
- Slovenia
- Bangladesh

- Ghana
- Iraq

3.Story:

4.ADVANTAGES:

Performance Analysis

Strategic Decision-Making.

5.DISADVANTAGES:

Data Accuracy and Reliability

Privacy and Ethical Concerns

Technical Challenges and Costs

Decision-Making Complexity

6.CONCLUSION:

In conclusion, analytics brings numerous advantages to the search and research of top Universities in the Global wide.
